

## TOJO IMPROVES AS MORE JAPS NABBED

Meandering  
Along the  
Main Stem  
By WASH FAYETTE

It seems that one box car that was partly derailed and stood on the brink of the chasm caused by the B. & O. bridge being carried into Paint Creek, Monday morning, was loaded with whiskey.

The car was not damaged, other than the truck, and so far as known the contents escaped harm, but as soon as it was known the valuable car load of liquor was involved in the wreck, a message came through for a special officer to be placed on guard over the car, and this was done. The public was not aware that a whole car of whiskey was left standing on the damaged roadbed.

A great many people have cause to remember the courtesies extended to them while in this city, and many of the courtesies come from the Fayette County Automobile Club as part of its regular services.

The following letter, from Dr. Robert I. Platter, pastor of the May Street Presbyterian Church, Cincinnati, is an example of what I mean, and is self explanatory:

"I wish to express to you a rather belated 'thank you' for service rendered me on July 18th, when I was held up by brake trouble en route to Baltimore.

"I was unable to secure mechanical assistance and appealed to your secretary for help in securing it. She arranged for the service at a garage and later called at the garage to see if all was being done to assist. As a result I was soon on my way without further delay.

"Please accept my sincere thanks for the prompt, courteous service and be assured it was very much appreciated."

A typical tramp visited numerous homes in the eastern part of the city one day this week, making a back-door appeal for food.

He was the first of his kind seen here for a long time, and the police have asked that when such characters appear, that they be notified at once so the "panhandler" can be picked up and taken out of the city.

"We don't want any tramps here" is the way Acting Police Chief, Capt. Jess Ellis sizes up the situation.

WORLD TRADE CO-OP  
URGED BY LINCOLNOhio Farm Bureau Head  
Speaks in London

LONDON, Sept. 12.—(AP)—Murray D. Lincoln of Columbus, Ohio, American delegate to the International Cooperative Alliance Conference, said today the structure of world peace must be strengthened by exploiting "every opportunity to increase the exchange of goods between us."

Lincoln, president of the United States and general manager of an Ohio Farm Bureau, told the closing session of the three-day meeting that International Cooperative trade in food, raw materials and manufactured products "will establish standards of performance which may alter the entire complexion of international treaty."

He declared "there is no assurance that the presently conceived world bank can serve the needs of cooperatives wishing to engage in international trade" and suggested the establishment of an international finance association to facilitate the work of cooperative groups.

WASHINGTON, Sept. 12.—(AP)—President Truman said today he thought it "perfectly silly" to suggest that American financial assistance to Great Britain was intended to finance socialization of that country.

Authorizing direct quotation, the president told reporters: "I think that's a perfectly silly conclusion. Great Britain is entitled to the type of government that Great Britain wants."

The question arose as a result of criticism by some members of Congress of administration plans to give Great Britain a multi-billion dollar postwar loan.

WASHINGTON, Sept. 12.—(AP)—Spain and Argentina took a less-favored position today among this country's foreign customers as most wartime trade barriers were removed for other nations.

The Foreign Economic Administration, dropping its export controls on about 80 per cent of the items restricted during the war, kept its grip on the two countries having a history of Axis sympathy.

WASHINGTON, Sept. 12.—(AP)—President Truman today laughed off attempts of reporters to persuade him to specify whether his administration is heading to the left or the right.

He told questioners at his news conference that they would have to judge the direction in which he was heading by his acts.

## Atom Bomb Melts Earth into Glass

HERE IS AN AERIAL VIEW of the crater left by the atom bomb which was used at the test 40 miles west of Carrizozo, N. M., before the first such bomb was dropped on the Japanese city of Hiroshima. Army and civilian officials who inspected the earth where the bomb was dropped wore anti-radium boots as a safety measure. Sand where the bomb hit was still jade green. (International Soundphoto)

Ohio Farm Labor Still Scarce  
In Spite of Unemployment

By JOHN FRYE

COLUMBUS, Sept. 12.—(AP)—Ohio farmers, many up in years and thinking of retiring, have found the termination of the war brought no end to their problem of hired help.

Tom Heeler, information assistant at Ohio State University's Emergency Farm Labor Office, described the situation today as "tight" and added except for sons of farmers, few war veterans were returning to the soil.

Wheeler said a statewide sampling of 1,047 farmers in August showed a demand for 422 year-round workers and 4,000 seasonal hands for harvesting. Bureau of Agricultural economists figures showed that as of January 1 farm labor supply was 42 per cent of normal and demand 99 per cent.

Complicating any farm labor study is the number of family workers receiving no wages—a figure that has remained almost constant at about 1.7 persons per farm since 1932—plus growing use of machinery to replace hand work.

Contributing to the scarcity of farm help is the fact farm wages do not compare in cash with industrial wages, Wheeler said.

War workers are not returning to the farms in numbers hoped for, he said, and some farm youths have been drawn to the cities by the bigger pay. Farm jobs in Ohio pay from \$50 to \$100 a month, depending on the work and whether the farmer provides housing and other necessities.

Wheeler praised the work of high school boys and girls who did much of the summer work during the war years.

However, he suggested farmers and processors might have to form cooperative associations in the future to take care of migrant labor for the peak seasons by arranging transportation and housing.

Such workers as Jamaicans and Mexicans would be moved from crop to crop as needed.

Two thousand Jamaicans and Mexicans, plus more than 500 prisoners of war, now are working in Ohio fields.

WASHINGTON, Sept. 12.—(AP)—Secret details of Japanese scientific investigations released here today refute enemy radio reports the atomic bomb area of Hiroshima had become unfit for human habitation.

Disclosed by Maj. Gen. Leslie R. Groves, head of the atomic bomb project, these reports declared 11 days after the bomb fell Hiroshima apparently was safe from dangerous rays. The reports said at any point beneath the impact of the explosion there was less than a tolerance dose of X-rays coming from ground or air.

This amount means, General Groves said, it is safe for anyone to live in that area permanently.

The general issued the Japanese reports in connection with a visit to the site of the first atomic bomb explosion, about 60 miles north of here. He led a party of 31 writers and photographers, five scientists and a dozen army officers into the bomb crater last Sunday.

This was the first public revelation of details of the atomic damage to the ground itself. The things seen there and the story of X-rays told by instruments carried into the crater showed definitely why Hiroshima and Nagasaki are not ruined for human habitation.

This New Mexico bomb was nearly as big and, for ray-making, just as terrific as the Hiroshima and Nagasaki bombs. It was exploded only 100 feet from the ground, where it melted the top soil for a quarter mile all around and by transmutation filled this thin layer with X-rays and other less dangerous forms of atomic rays.

Both Japanese bombs were exploded at much greater heights. When Groves led the party into the New Mexico crater the boiled earth there still was emitting X-rays. But less than two months after the explosion, these rays had died down so much that half an hour's stay was safe.

The crater, a saucer nearly half a mile wide, was an almost unbroken expanse of fide and turquoise colored glass, formed by the intense heat that melted the earth. At the center of the crater was a bowl, 300 feet across.

Equally amazing was the form of the crater. The solid earth had been forced down, as if pressed by a gigantic mold.

## Scientific Studies at New Mexico's Secret Testing Ground Refute Jap Claims That Bombed Area Made Unfit for Human Habitation

By HOWARD W. BLAKESLEE

ALAMOGORDO, N. M., Sept. 12.—(AP)—Secret details of Japanese scientific investigations released here today refute enemy radio reports the atomic bomb area of Hiroshima had become unfit for human habitation.

Disclosed by Maj. Gen. Leslie R. Groves, head of the atomic bomb project, these reports declared 11 days after the bomb fell Hiroshima apparently was safe from dangerous rays. The reports said at any point beneath the impact of the explosion there was less than a tolerance dose of X-rays coming from ground or air.

This amount means, General Groves said, it is safe for anyone to live in that area permanently.

'BLACK DRAGON'  
KILLED AS YANK  
GRIP TIGHTENSAmerican Sergeant Gives  
Blood To Save Warlord So  
He Can Be Made To Suffer

TOKYO, Sept. 12.—(AP)—American medical science and a gift of blood from a Pennsylvania sergeant late today appeared to have thwarted Hideki Tojo's suicidal attempt to avoid trial as a war criminal along with 39 other persons now being rounded up in Japan.

The one-time dictator who directed the Pearl Harbor attack but whose pistol bullet missed his own heart yesterday, rallied

KORE

## WORLD TODAY

—By DEWITT MACKENZIE—

One would search long and hard to find anything good about General Tojo, but we must give him credit for making a valuable contribution to the welfare of mankind when he shot himself yesterday in Tokyo.

Tojo was whelped in militarism. He grew in strength until he became the mainspring of the mighty war-machine which tried to establish a greater east Asia under the rule of Japan. His was the hand which held the dagger that stabbed Uncle Sam in the back, for the general was premier when the sneak attack was made on Pearl Harbor.

Through the long years succeeding Pearl Harbor the Japanese people came to look upon Tojo as the arch militarist who would lead them to victory and make them overlords of their fellow men. Might was right. Militarism was the pass-word to imperial greatness, and Tojo symbolized militarism.

Now suddenly the public is stunned with the disclosure that its god had feet of clay. Tojo, the chief of all the militarists, shoots himself because he has failed, that is, because militarism has failed. Many Japanese will nod with approval and say that this was the only honorable thing the general could do; this was the only way he could atone for dishonoring his mikado. But whatever construction you put on it, the fact remains that the people of Japan are for the first time seeing militarism in its true colors.

We may expect, I believe, that Tojo's action—and similar events which are emphasizing the evils and futility of militarism—will be of invaluable assistance to the Allies in remoulding the character of the Japanese people. For that is our task, and it must be done by enlightenment.

Appropos of this vast educational job, we have an interesting comment from Kichisaburo Kurosu, the Jap diplomat who talked peace in Washington as the Imperial fleet struck at Pearl Harbor. America naturally has a very low estimate of Kurosu, but even the devil himself may make wise remarks at times, and so we find food for reflection in the diplomat's statement:

"I cannot see Japan exactly like the United States overnight. The people are not ready, they have been so long under militaristic government. Charges must be gradual or the world will find Japan in a grip as bad as that of the military clique that precipitated the war."

Wherever the truth may lie in this matter, the bullet which Tojo sent through his body will act as a tracer of light to help the people of Japan see the truth about aggression. Democracy may move fast in the mikado's domains once it gets under full way.

It would be interesting to know all Tojo's thoughts in contemplation of death. If he intended to commit hara-kiri because he had failed in his duty to his emperor, why didn't he do it immediately? My guess is that he waited because he thought there might be a bare chance to save his own skin. He didn't want to die for honor or for any other reason.

### AUTO RECOVERED

A Buick automobile owned by William Klever, and stolen from the curb on Market Street, Monday night, was found abandoned in Greenfield. Police are following clues in the hope of locating the thief.

## MORE DOGS DIE IN THIS CITY DUE TO RABIES

Two Are Killed After Both Had Been Penned by Their Owners

Two additional rabid dogs have been killed in Washington C. H. and one has died without being shot, it was disclosed Wednesday, by city police and Dr. William Bolton, of the Fayette County Health Department.

Two of the dogs were afflicted with dumb rabies and the third one was violent. Both dogs that were shot had been penned up recently, but one animal is known to have bitten nearly a half score of other dogs, and most of these have been rounded up and disposed of.

In nearly every case owners of the dogs bitten have asked the Dog Warden, Otis Bonecutter, or other officers to dispose of the animals.

One of the animals, shot by the police late Tuesday afternoon after Dr. Bolton had pronounced the case one of rabies, was owned by the Horney family on Third Street.

A reddish-brown bird dog owned by Mary Glascoe, Delaware Street, was the one that had bitten rabies and had bitten many other dogs before being rounded up.

Very few other dogs than those known to have rabies have been picked up and disposed of, it seems, and as dogs are kept three days after being picked up, the owners have an opportunity to reclaim them.

Officials frankly admit that the situation here is not improving, and the public is asked to be wary of all dogs seen on the streets.

## CIGARETS ENOUGH TO MEET DEMANDS

All Dealers Well Supplied Once More

Apparently the cigaret shortage has vanished, and all dealers now carry their stocks on shelves, and apparently have more cigarettes than meets the daily demand.

With further reduction of the number sent overseas for use of the armed forces, a still greater increase in the supply is expected. In most instances customers are no longer limited to one pack to a customer, unless a dealer's stock runs low temporarily.

The shortage lasted for upward of a year, and during part of the time it was almost impossible to purchase a pack of cigarettes.

**AFTER SMOKE NUISANCE CHILLICOTHE**—Council has named a committee to study and recommend action to abolish the smoke nuisance here.

## Now She's Walking On Air

Every day, people who really suffer from tired, burning feet are learning the quick, thrilling comfort that lies in a jar of Ice-Mint. Under the touch of this frosty-white cream, you can actually feel tired muscles relax, as your feet respond almost instantly to its refreshing coolness. To help soften corns and calluses, there's nothing better than medicinal Ice-Mint. So get a jar today and enjoy the blissful feeling that comes with all-day foot comfort. At all drugists.

## Scott's Scrap Book

## Health Commissioner Here Asked To Resign

Dr. W. D. Maag, for three years health commissioner for Fayette County, was requested to resign his post Tuesday afternoon at a meeting of the Fayette County board of health.

Walter Sollars made the request for the resignation, a member of the board reported. Sollars said the board felt Dr. Maag had not fulfilled his obligations and duties as health commissioner and on that basis had decided to ask for his resignation.

Dr. Maag made no statement that would indicate when he would comply with the request.

### DEMONSTRATION AGENT SPEAKER AT COUNCIL

Miss Margaret Watson, the home demonstration agent, was a guest speaker when the Paint Township Farm Bureau Council met at the home of Mr. and Mrs. E. L. Thomas.

The program was in charge of the women and those appearing on it included Mrs. Belle Thomas, Mrs. Ethel Green, Mrs. Madeline Whiteside, Mrs. Elmer Simerl and Miss Watson. Roscoe Whiteside also spoke.

Refreshments were served after the meeting. Mr. and Mrs. Frank L. Green will be hosts at the next meeting.

## HERB'S DRY CLEANING

122 E. Court St.  
HERB PLYMIRE, Prop.  
WE CLOSE AT NOON ON THURSDAY

## Wallpaper At The BARGAIN STORE

106-112 W. Court St.  
Washington C. H., O.

## PUBLIC SALE

(Closing Out)  
I have sold my farm and will hold a closing out sale on Route 22, one mile east of Washington C. H.,

**FRIDAY, SEPTEMBER 14**

(12 O'clock, Prompt)

**14—CATTLE—14**

Eleven head of good cows, aged from 2 to 9 years old, four recently fresh, and others to freshen in fall and winter; one registered Shorthorn bull, two years old.

**10—HOGS—10**

Eight purebred McGee sows, two purebred Hampshire sows all to farrow soon.

**44—SHEEP—44**

Twenty Shropshire ewes and twenty-four lambs.

### FARM EQUIPMENT

One Oliver 5-ft. combine, used one season; one rotary hoe, used one season; one Universal milking machine, only used one month; one Co-op milk cooler (3 can capacity); six 10-gallon milk cans; two rubber tired wagons with beds (one like new); a set of fence stretchers; wheelbarrow; a lot of small tools; used doors, windows and used lumber; about 50 fence posts and some wire fence.

### —NOTICE—

These additional will be sold in this sale.

**One Fordson tractor on rubber with starter, also related items such as Ferguson power mower, 2 bottom 14 inch plow, disc, cultivators, corn planter and one Thomas wheat drill, one steel tired wagon box bed. 2 sleds, one McCormick-Deering manure spreader, one corn sheller, one land drag.**

**12 TONS OF COAL**

### FEED

150 bushels of wheat; 100 bushels old corn; 500 bales mixed hay; 300 bales alfalfa hay, all in mow; 200 bales straw; 35 acres standing corn.

### CHICKENS AND EQUIPMENT

About 180 R. O. P. White Rock pullets, ready for production; 140 Barred Rock yearling hens; one new electric brooder (300 chick capacity); one oil brooder; one new 8-ft. metal feeder; small feeders and fountains.

### HOUSEHOLD GOODS

Kneehole desk and chair; three piece wicker set; kitchen table and chairs; electric clock; Majestic cabinet radio; one dining room set consisting of buffet, table and chairs; porch glider; oak lawn set; Copper Clad combination bottled gas and coal range (like new); numerous other small items.

TERMS—CASH

Lunch Will Be Served

**JOSEPH D. FLYNN**

Walter Bumgarner, Auct.

Albert Schmidt, Clerk

## 'MEMORY BOOK' EASED LIFE IN JAP PRISON FOR AMERICAN MARINE

(Continued From Page One)

marked "lest we forget." He even managed to find a piece of red crayon to color the stars in the flag.

Then in his odd hours he set down the memories. First he made a calendar and crossed off the days. He circled the 15th of August, when he first heard of Hirohito's capitulation, and September 5, the day he was freed.

He then listed significant dates in his marine service and names and addresses of all his fellow prisoners. Next he recorded a bet with another prisoner that an armistice would be signed at an hour closer to nine A. M. than noon. The bet was for "two wash basins, two apple pies, two jelly-rolls and four malted milks, payable at first opportunity." Oscar won. The Japanese envoys signed shortly after nine o'clock on the battlefield Missouri.

Oscar next listed all cities he had ever visited, his favorite jazz songs; and all the clothes he wanted to buy when he got home. There were 38 different items, including two pairs of riding pants, 12 white shirts, a pinstripe suit and a polo coat. Then he listed 33 presents he would like to receive, ranging from a portable typewriter to a shotgun and a cigar holder.

He set down all the holidays he could remember—first American, then Hawaiian, and Japanese—and followed that with a list of important anniversaries in his life. One notation said "mother's birthday" and five spaces below it was "August blank, 1938,—mother buried."

Oscar then noted down all the mountains he had seen, all theaters he had visited, all night clubs he had ever been in, schools he had attended, names of all his prison camp friends and other friends in the marine corps, his

schoolyard chums, names of every hotel he could remember, an itemized list of the contents of Red Cross food packages and the magazines and books he would like to read.

One book he wrote down was "The Rise, Decline and Fall of the Roman Empire" by Floyd Gibbons.

Finally, when hope of early release drew near, he scribbled names of all the people back home he wanted to visit.

Oscar composed several sentimental and light spirited songs and poems and generously gave space to the following poem by an early poet:

"Full fathoms five thy father lies,

Of his bones are coral made.

"Those are pearls that were his eyes;

"Nothing of him that doth fade,

"But doth suffer a sea-change

"Into something rich and strange."

It is "Ariel's Song" by Shakespeare.

Tomorrow I will give you some songs and poems by Oscar himself, poet laureate of Ashiro prison camp.

Flashes of Life

**A Polite Hint On Reconversion**  
NEW YORK—(AP)—A reconversion to peacetime industry is not enough, says James E. Stiles, publisher of the Nassau Daily Review-Star. There is a pressing need also for "reconversion to politeness."  
Stiles' Hempstead Town Courtesy-Cooperation Campaign was borrowed by 70 other communities in the United States during the war. Its strong point was to ease wartime tensions.  
Now he says six phrases forgotten by those who served the public during the war should be immediately revived. They are "May I help you?" "Thank you." "Gladly." "Come Again." "Please." "Immediate delivery."

Grab Bag

- One Minute Test**
1. What man served as president of the United States and also as chief justice?
  2. How many of our states are named after presidents?
  3. Which is the largest and which the smallest state in the Union?
- Words of Wisdom**  
I had rather have a fool make me merry, than experience to make me sad.—Shakespeare.
- Hints on Etiquette**  
Wait your turn to go through a doorway. Don't crowd in when some one else is going through. The person who reaches the door first has the right of way.

Today's Horoscope

If you are observing a birthday today, you are generous, considerate, affectionate and well-liked by your friends. You have a logical mind and are scrupulous in your efforts to do everything well and with great care. You are quick-tempered, but your generous nature induces you to forgive quickly and easily. Gossip in the air today can arouse serious trouble. Even if you are interested in the person being discussed, do not listen to the idle talk, and by no means be a participant in spreading it.

One Minute Test Answers

1. William Howard Taft.
2. One—Washington.
3. The largest is Texas, the smallest, Rhode Island.

members of which suffered much at the hands of dealers who took no trouble, explained nothing, guaranteed nothing—"There's the car—take it or leave it"—will long remember and patronize when possible the firm which was courteous and honest. Its square salesmen and competent mechanics said pleasantly when complimented, "The boss says we've been in business a long time and expect to go on. It's merely good business to treat people as dependably now as at any other time."

It was indeed good business. And is, and always will be.

A Close Shave

"Though the mills of God grind slowly, yet they grind exceedingly small." It is so with the once great and powerful "Third Reich" now stripped of its glory and power, with its leaders brought cringing before the bar of international justice to answer for their crimes.

Hitler has gone the way of all flesh, we hope, and there are many to follow—some to the gallows and others to long imprisonment. Goering and Hess and Ribbentrop and Ley and Schacht and von Bohlen and Halbach, the great and near-great, the braggarts and the slinkers, little by little disgorge their stolen pelf and shed their grandeur, and line up for their inevitable punishment and lasting shame. In the Pacific area the killers and looters are rounded up at last for their doom and the dawn of a better way of life.

So, little by little, the world begins to cleanse itself from the most perilous plague of rascals that has polluted this earth for many generations. The sane and gentle and wise begin to function again in a civilization that still shudders at its narrow escape, and turns uneasily to contemplate the dangers it has overcome.

Remember when it was an insult to call anybody a "mere atom?" And now the mere word makes people tremble.

LAFF-A-DAY

—Er, Sonny, if you haven't already done your good deed for the day, wouldn't you like to get it over with?"

Diet and Health

Preventing the Common Cold

By HERMAN N. BUNDESEN, M. D.

**WHETHER** in time of war or in time of peace, absenteeism from industry is a problem that needs prompt solution. Probably the greatest cause for absenteeism is the ordinary cold. It is true, colds for the most part occur during the colder weather, but there are times, even during the summer months, when epidemics of colds seem to get started and sweep through large groups of people.

In industrial plants there are three kinds of measures which are needed to keep epidemics of colds from occurring. First, there should be proper working conditions and services for safeguarding the employees' health. Second, the employees should receive proper instruction in protecting themselves; and third, the employees should do certain things to help maintain their health and well-being.

Heat and Ventilation

For example, the management can provide properly heated and ventilated work rooms so that there will be no unnecessary exposure to either cold or excessive heat. Then, too, there should be proper ventilation of the work rooms.

All eating utensils can be properly washed and sterilized to keep them from acting as a means of carrying germs. It is a good plan, should an epidemic occur, to have the washing and sterilizing processes checked to make sure that they are satisfactory and efficient. Of course, anyone engaging in the handling of food or the preparation of food should be sent home if he has a cold. Workers should also have properly heated locker rooms where they can change their clothing at the end of the working day.

This will, of course, prevent to some extent, exposure and chilling. **Cold Prevention**  
In instructing employees about helping to avoid colds the following things are important: (1) They should be taught to avoid contact with persons who are sneezing or coughing or who have any signs of a cold, as much as possible. (2) They should stay away from others when they have a cold themselves, especially during the first few days, when colds are most contagious. (3) They should wash their hands always before eating and it may even be a good plan to avoid shaking hands when having a cold. (4) They should eat a well-balanced diet. (5) They should get plenty of sleep. (6) They should avoid fatigue and overtiredness. (7) They should exercise regularly after work, if the type of work they do does not require much physical effort. (8) They should wear enough clothing to be warm and should put on additional clothing when going out in cold weather. (9) If a cold should start they should go to bed, keep warm, and take plenty of fluids. Of course, if there is fever, chest pains, weakness and aching, the cold may not be an ordinary one, but may indicate the beginning of an influenza or pneumonia attack and the physician should be called at once.

Since colds are most infectious at the beginning, it is a good plan when a cold first starts to go home and stay there until the infectious period is past and also to help keep the cold from getting worse.

Today's Inspiration

COMPILED BY W. J. HILTY

**SEPTEMBER 12**  
\*Author's Birthday  
Now therefore, see that no day passes in which you do not make yourself a somewhat better creature; and in order to do that, find out first what you are now. Do not think vaguely about it; take pen and paper and write down as accurate a description of yourself as you can, with the date to it. If you dare not do so, find out why you dare not. I do not doubt but that the mind is a less pleasant thing to look at than the face, and for that very reason it needs more looking at; so always have two mirrors on your toilet table, and see that with proper care you dress body and mind before them daily. After the dressing is once over for the day, think no more of it. I don't want you to carry about a mental pocket comb; only to be smooth braided always in the morning.  
\*John Ruskin  
Let me die working.  
Still tackling plans unfinished, tasks undone.  
Clean to its end, swift may my

race be run,  
No lagging steps, no faltering, no shirking;  
Let me die working.  
Let me fare forth still with an open mind,  
Fresh secrets to unfold, new truths to find,  
My soul undimmed, alert, no question blinding.  
Let me die thinking.  
Let me die giving  
The substance of life for life's enriching  
Time, things and self to heaven converging.  
No selfish thought—loving, redeeming, living.  
Let me die giving.  
\*Samuel Hall Young  
**COLLISION FATAL**  
MANSFIELD, Sept. 12—(AP)—Casimer C. Ciesla, 41, was injured fatally when the automobile he was driving collided with road repair machinery near here yesterday.

Pattern for Love

by LORENA CARLETON

**SYNOPSIS**  
SANDRA EDWARDS is an attractive, red-headed dress designer who volunteers to take 12-year-old SPENSER WITTINGTON, an English boy who was bombed out of his home, to live with her on a dude ranch in Arizona until he can return home. BELINDA ADAMS is the unhappy 12-year-old daughter of GORDON ADAMS, handsome owner of Mesquite Ranch.

**CHAPTER FIFTEEN**  
AGAIN SPENSER'S lip curled contemptuously. "Weren't they simple, Sandra? Weren't they?" he persisted. "To think I'd not know from their American slang that they were discussing Belinda's father."

Sandra's shock over Spenser's knowledge as to how to coerce Estelle had been an amazed one. Her shock over this new knowledge of his was a terrified one. Where was the blind innocence of childhood about which one heard: "Oh, Spenser!"

"What's the matter?"

"You said something the other day about leaving. Would you still like to leave? We could go right away. We could find some other place to stay. We don't have to stay at the Mesquite. Shall we go, Spenser?"

"Indeed not!" The boy's look indicated that she was not being at all brilliant. "Just because Belinda's father gets in his cups? That has nothing to do with us. Later perhaps, if I get bored, we may leave. But not now."

Blase to an extreme, he chilled Sandra's ideas. "Nice work," she commented dryly to herself. "Here I am, trying to ease my own troubles and I run into those of everyone else."

A moment later she said aloud: "Now that you know about Belinda's father, you surely understand her unhappiness. You'll be more tolerant."

"Not a bit," Spenser replied loftily. "Her father is a boulder and she knows it. But she should not be so affected by it. She should keep her chin up."

There was dangerous spirit in Sandra Edwards' voice: "I'd say she does keep her chin up!"

"Oh, I suppose so," the British boy admitted to himself. "But does she have to be so grudging about it? A grin of anticipation flitted across his features. 'I say, waiting for her father is like waiting for an actor to come onstage, isn't it?'"

"Yes, that is right."

Sandra realized, as the day went on and Gordon Adams did not appear, how extremely apt Spenser's description had been. For it was "waiting." That waiting was noticeable in everyone. The Mexican cook, old Brody, the young cowpunchers, in Belinda, of course. At the dinner table that night her eyes

moved constantly. And her ears were closed to all sounds about her, open only to one sound. And that one did not come.

Gordon Adams appeared the next afternoon. Sandra heard him before she saw him. Rather, she heard a splash in the swimming pool and, as if she had been stabbed, roused from her nap to peer through the glass. Her heart was pounding for fear it might be Spenser.

Oddly, when the swimmer emerged from the water and she saw that it was not Spenser, her heart kept pounding. She knew it was Gordon Adams. He had the same black hair as Belinda, the same way of holding his head, rather stiffly like an arrogant horse.

Only now he suddenly was not holding it that way. He sat down on the cement, folded his arms across his knees, and dropped his head across that support. He was exhausted from his one-way trip down the pool, so exhausted that he was shaking. Somehow if he had been scrawny Sandra would not have thought much about it. But he had such a broad back, such wide shoulders, that his trembling seemed horrible.

After a few minutes he raised his head and gazed at the pool. Then he got up. But, instead of swimming, he walked back to where he had left his robe. He found a cigarette, sank into a steam-er chair, and just sat there, eyes closed, motionless, except for his hand lifting and lowering the cigarette.

He did not finish his smoke. He ground it out against the cement, then cupped his hands about his mouth and yelled toward the kitchen.

"Brody, bring me some iced coffee or a coke or something." He added a peevish exaggeration. "I'm practically dying."

Sandra waited, back of her glassed-in protection, for Brody to bring the drink. The old cowboy talked quietly for a short time, then went back to his duties. The girl started outside, then changed her mind and stepped to a mirror.

Instinctively she did all the things women do before mirrors. She smoothed her eyebrows and upswiped red hair. She pressed a fingertip against her lashes to make them curl and put on fresh lipstick. She made sure her skirt was hanging evenly, saw to the stocking seams and arranged her collar.

Then she walked out into the patio. "Hello?" she called out when she was near him.

"Hello?" he answered. "Who are you?"

"I'm Sandra Edwards."

His look of perplexity did not leave as she had expected. "What are you doing here?" he asked.

"Why, I'm living here. Mr. Wake-man arranged for me to come out earlier. Don't you remember?"

"No. His perplexed expression faded into one of disinterest. "I

moved constantly. And her ears were closed to all sounds about her, open only to one sound. And that one did not come.

"I'm Sandra Edwards."

His look of perplexity did not leave as she had expected. "What are you doing here?" he asked.

"Why, I'm living here. Mr. Wake-man arranged for me to come out earlier. Don't you remember?"

"No. His perplexed expression faded into one of disinterest. "I

moved constantly. And her ears were closed to all sounds about her, open only to one sound. And that one did not come.

Gordon Adams appeared the next afternoon. Sandra heard him before she saw him. Rather, she heard a splash in the swimming pool and, as if she had been stabbed, roused from her nap to peer through the glass. Her heart was pounding for fear it might be Spenser.

Oddly, when the swimmer emerged from the water and she saw that it was not Spenser, her heart kept pounding. She knew it was Gordon Adams. He had the same black hair as Belinda, the same way of holding his head, rather stiffly like an arrogant horse.

Only now he suddenly was not holding it that way. He sat down on the cement, folded his arms across his knees, and dropped his head across that support. He was exhausted from his one-way trip down the pool, so exhausted that he was shaking. Somehow if he had been scrawny Sandra would not have thought much about it. But he had such a broad back, such wide shoulders, that his trembling seemed horrible.

After a few minutes he raised his head and gazed at the pool. Then he got up. But, instead of swimming, he walked back to where he had left his robe. He found a cigarette, sank into a steam-er chair, and just sat there, eyes closed, motionless, except for his hand lifting and lowering the cigarette.

He did not finish his smoke. He ground it out against the cement, then cupped his hands about his mouth and yelled toward the kitchen.

"Brody, bring me some iced coffee or a coke or something." He added a peevish exaggeration. "I'm practically dying."

Sandra waited, back of her glassed-in protection, for Brody to bring the drink. The old cowboy talked quietly for a short time, then went back to his duties. The girl started outside, then changed her mind and stepped to a mirror.

Instinctively she did all the things women do before mirrors. She smoothed her eyebrows and upswiped red hair. She pressed a fingertip against her lashes to make them curl and put on fresh lipstick. She made sure her skirt was hanging evenly, saw to the stocking seams and arranged her collar.

Then she walked out into the patio. "Hello?" she called out when she was near him.

"Hello?" he answered. "Who are you?"

"I'm Sandra Edwards."

His look of perplexity did not leave as she had expected. "What are you doing here?" he asked.

"Why, I'm living here. Mr. Wake-man arranged for me to come out earlier. Don't you remember?"

# Lions Drill Under Lights for Opener Friday

To put a few more of the necessary finishing touches to the opening of the football season here Friday night, the WHS Blue Lions Tuesday night were given their first workout under the lights since practice started more than a month ago at Gardner Park.

Rugged scrimmage was the order of the evening for this final phase in the preparation for their first game here against the boys from Portsmouth East High School.

Five full teams were on the field. While two ran through signal drills at the west end of the park and another busied itself similarly at the east end, two other went at it hammer and tongs on the playing field under the eyes of Coach J. R. Brammer and his assistant, Stephen Lewis.

Brammer gave his attention to the team on the offense in the scrimmage and Lewis devoted himself to the one on the defense. In a general sort of way, Brammer was polishing up the backfield and Lewis the line.

Both coaches were in the thick of activities all the time. After each play, they analyzed it for the

points of tactics that fitted each move into the general pattern play. One team after another took its turn in scrimmage. But, there was nothing to indicate that the squad had been shuffled into the position, although most of the team seemed to be fairly well settled.

Hard and sure tackling and effective blocking raised the hopes of the sizeable crowd that followed the play up and down the sidelines. Many young men who only a few short months ago had been in foxholes and in sea battles watched the workout. Most of them had worn the blue and white on that same field not so long ago.

C. R. Bohn are using Pearl Harbor golf balls. A friend from Pearl Harbor sent a dozen pre-war golf balls to them.

Feminine golfers who have been playing this week: Miss Doris Reigel, Mrs. E. W. Shobe, Mrs. Lorena Littleton, Mrs. Bob McDonald, Mrs. Tony Capuana, Mrs. Walter Jones, Mrs. Juanita Cannon, Mrs. Troy Junk, Miss Clara Story, Mrs. George Sever.

# Tri-County League Expansion Likely On First Year's Success

Only a few short months ago, a handful of intrepid baseball fans with faith and vision conceived the idea of forming a league composed of teams from Washington C. H. and surrounding cities and towns. There was plenty of cold water thrown over their ideas, but they were tenacious and went right ahead. They took the criticism and the skepticism as guideposts for steering around possible pitfalls, but they did not let them become barriers in themselves.

They held a firm conviction that baseball still was a great American pastime and that this still was a typically American community. So they went ahead. In private, they admitted they were keeping their fingers crossed, but they thought of the potential benefits a revival of Sunday afternoon baseball would provide and took a "show us" attitude.

Reasoning Sound  
That the reasoning of these hardy optimists was sound is shown by the record.

First of all, the league has furnished an outlet for enthusiasm for more than 100 young men and boys who have been given an op-

portunity to play the game nearly every Sunday. Fifty-three games of the 60-game schedule set up at the beginning of the season now have been played. Only two weeks are left, and everyone is sorry about that. But, then, they are looking forward with keen anticipation to a possible post-season play-off of some kind—something to make the sport last just a little longer.

Average attendance 16,000. With average attendances running over the 300 mark, the totals for the season already are approaching 16,000.

The league was not formed as a money making venture, for either

the players or team backers. But it has not been expensive for anyone. The fun is considered ample compensation.

With the record of the first season held up as definite proof of success of the league, indications are that it will be expanded before the start of another. Bob Bailey, the secretary, and Carl Noon, the boss man and coordinator, have not given out any details yet, but they do not deny that the handful of men whose determination got the league started are now looking into the future with confidence that this community will have more and better baseball next year.

# 19th Hole At Country Club

Good golf scores are getting to be the rule rather than the exception at the Country Club, and the consensus is that the excellent condition of the course cannot be discounted as an important contributing factor.

Players agree that the greens never have been better—visitors who play on courses in other cities nearly always comment on them, too—and the fairways, always kept mowed, have been baked so hard by the late summer sun that drives that might be just so-so under other conditions roll into unusually long ones. But, in spite of the dry weather, the sod is even and green with life. No longer is it so disastrous to get off the fairways. No longer is there any "rough" worthy of the name. The chief hazards are the trees—and they are hazardous.

Notes from the notebook of Tony Capuana, the club pro, show: Size doesn't mean so much in golf. Joe Cullen, half pint sized high school swinger, turned in a score of 43 for his lowest yet. And, A. B. Murray, his school superintendent who weighs fully twice as much, shot a 42 for his lowest.

Howard Foster, Bob Craig, Charles Reinke and Walter Rettig are the best wet-weather foursome at the club. They have had very good scores playing in the rain.

Bruce Devins and Don Brandenburg are regular early afternoon golfers. Glen Speaks has had his dream come true. He beat Glenn Rogers, Ed Hunt and Russell Giebelhouse all in one day. He has been trying to do this since he started playing golf.

Red Reno had his best ever—shot a 40. Take notice Dick Dellinger.

Jerry Dunton had his first par on No. 8 hole.

Mr. and Mrs. E. W. Shobe golfed in Columbus over the weekend. Hap Weatherly marked his first eagle—a one-under-par 3—on No. 4 hole while playing with Frank Brown, O. D. Farquhar, Glen Speaks and Hubert Follis.

Carl Self was out playing for the first time in two years.

The pro had a wonderful chance for a record score. He was 4 under par on the first 4 holes and ended with a score of 33—that's 3 under par for the course.

Carl Bender played the most golf Sunday, 43 holes.

Shirley (V. J.) Reigel shot a 103 for 9 holes.

Scores: Bruce Devins-38; Bill McLean-36; Frank Jackson-44; C. W. Dunton-36; Stan Hagerty-39; O. D. Farquhar-42; Jim Grimstead-45; Bob Craig Sr.-45; W. S. Paxson-48; Carl Witt-48; Dr. I. J. Pumphrey-41; Dr. Fred Woodland-44; Darrell Thornton-45; C. R. Vanzant-44; Dick Sander-42.

Bob Helfrich received a box of new golf balls through the mail from a friend. A very good friend indeed.

Frank Lentz, Ora Middleton.

# ALL-AMERICAN BILL HACKETT TO BE BACK WITH BUCKS

COLUMBUS, O., Sept. 12.—(AP)—Bill Hackett, Ohio State captain and all-American guard, will be back with the squad Monday and the world is looking pretty rosy to the Bucks.

Hackett, thought lost to the team for probably the entire season because of a head injury

in an auto accident last January, yesterday was pronounced fit by team physician Walter E. Duffee.

Hackett is scheduled to participate in all practice sessions for the Bucks' opener against Missouri here Sept. 29.

At Duffee's suggestion, the London, O., senior returned home for a brief rest yesterday.

The Bucks' spiraling hopes following Hackett's return were prompted by the fact the Bucks were weakest on the forward wall—right where their all-American boy is strongest.

With the Missouri opener getting closer, Coach Carroll Wild does yesterday stressed contact work in the morning session only to save his practice-battered squad.

Wayne High School's baseball team capitalized on a long outfield hit and an error to win a Tuesday afternoon game from Madison Mills, 4-3.

The hit, swatted out by Rinehart, Wayne leftfielder, developed into a home run with Anderson on base. Moon, Wayne shortstop, leaped into the air for a spectacular catch and doubled Schwaigert of Madison Mills off second base to end the game.

The batteries of both teams were in good form. Daves, Good Hope hurler, showed ability to pitch himself out of a hole while Nance and Schwaigert, catcher and pitcher for Madison Mills, worked together smoothly.

# -Spying- On Sports

By Hugh Fullerton Jr.

NEW YORK, Sept. 12.—(AP)—Ed Wright, the rookie who shut out the Cubs for Boston the other day, was discovered by Red Smith, the Cub coach, who got \$1,500 for his find. Wright may have pitched Red right out of a cut in the World Series dough.

Jimmy Johnson is broadcasting the news that he now is manager of Al Hootman, who was heavyweight champion of the Pacific area before his discharge from the army. Hootman is six feet five and weighs 210, which makes him about big enough to do everything Jimmy claims he can.

The Army-Notre Dame basketball game, which would pack any indoor arena the way their football games does the Yankee Stadium, will be played in the West Point Field House with no charge for admission.

Let Who Do It?

The New York University football manager is George Kleinknecht, his assistant is George Olsen and the publicity director is George Shiebler. When there's a tough job, who do you suppose does it? Why, Coach Jack Weinheimer, of course.

One-Minute Sports Page

What's this story that the all-American football conference is trying to peddle a quarter interest in the "strongest" franchise—Los Angeles—for \$50,000? Ed Danforth, Atlantic Journal sports editor suggests the "Confusion Bowl" as a name for the Miami (Florida) vs. Miami (Ohio) football game October 26.

This Way Out

Manager Chick Wergles tells about this conversation with lightweight Beau Jack, who is due out of the army any day: "Mustah Wergles, my papers is gone through; everything's gone through, but I ain't gone through. I want to go through the gate."

ATOM BOMB MELTS EARTH INTO GREEN GLASS IN TEST IN NEW MEXICO

(Continued From Page One)

The mold was the pressure generated in the bomb. The amount of this pressure is a secret, except for an approximate figure given in the official British report. The British said the pressure was millions of times greater than one atmosphere, which is 14½ pounds a square inch at sea level. The heat which boiled the earth is also a secret.

Within the center members of the party picked up pieces of the colored glass. Some were a quarter of an inch thick, others so thin that they crumbled at a touch.

In the center of the crater, where most of the glass had been blown out, there were much thicker pieces. There were melted pieces of iron, bricks which crumbled at a touch, and occasional

# GRAIN MARKET NEWS SUMMARY

CHICAGO, Sept. 12.—(AP)—Active buying and export demand, boosted wheat prices today, although there were reactions from the best levels of times. Corn was firm as traders noted a government weekly crop summary which said hot, dry weather had caused some deterioration in southwestern states. Oats were up fractions most of the time.

Wheat closed ½¢ to 1¢ higher than the previous finish. HORSE SHOW'S ORGANIZATION NEARS FINISH

Entry Blanks, Programs Are To Be Mailed Before Very Long

A working organization for the Lions Club-sponsored horse show here September 30 was virtually completed Tuesday night at the club's regular dinner meeting at the Country Club.

The executive committee, John Sagar, chairman, Frank Ellis, R. B. Tharp, Fred Foster, W. L. O'Brien, G. B. Vance and Dick Willis, went into a long session with club members after the regular meeting to work out more details and pick up loose ends of the plans.

Entry blanks, premium lists and the program are to be mailed just as soon as they are completed, it was indicated, probably within a week. A good list of entries is expected by the time they close on September 24.

Judges will be Thomas Barnhart of Franklin for the saddle horses and Jack Parker of Granville for jumping horses, both competent officials.

The complete list of committees is: Advertising, Frank E. Ellis; tickets, R. B. Tharp; boxes and ushers, Mac Dews; programs, Dr. C. L. Ford, Don Brandenburg; entries, John Sagar; assistant secretary, Fred Foster; stewards, Robert Craig, Robert Terhune; ring gate, Richard R. Willis; Howard Foster; finance, J. Roush Burton; Harold McCord, Don Gibson; Walter Rettig; electricity and water service, A. E. Weatherly; police and traffic, Robert Jefferson; lunch and concessions, Loren Hynes; purse contributions, W. L. O'Brien;

Straw and grounds, G. B. Vance, Robert Cannon, Frank Sollars, Robert Terhune, Clifford Hughes, Dudley Roth, Gene McLean, Edgar McFadden and Ray Warner; chairs for band and boxes, Ambrose Elliott; decorations, Carl Will, W. W. Humphries; veterinarians, Dr. James McCoy, Dr. Donald Mossberger; judges, Thomas Barnhart of Franklin and Jack Parker of Granville; ringmaster, John Sagar; announcer, J. Rankin Paul; sound, Ellis Daugherty and music, the high school band.

Guests at the Lions Club meeting included R. A. Clark, McColl Daugherty, Barney McGee, Robert McDonald, M. C. Highfield, L. W. Moss and Ed Mosier. Plans for the Fair Board night when members of the board are guests of the club, were made for September 25. The ladies' night Halloween party committee is Howard Foster, chairman, Don Scholl, Andy Loudner, James Shoemaker, Dr. James McCoy, Ambrose Elliott and Don Gibson.

BOOSTER NIGHT SET BY MARSHALL GRANGE

Contribution Made to Student Loan Fund

Marshall Grange's booster night program, honoring charter members and members of long standing, is slated for September 27. It was decided when the group met Tuesday night in Grange Hall.

Besides the charter members, men and women who have belonged to the Grange 25 or 15 years will be honored. A covered dish supper will begin the evening's program.

The Grange voted \$10.57 to the student loan fund during the business meeting Tuesday.

The program, directed by Mrs. Ruth Sheely included a reading, "The Message of Peace" by Mrs. Harry Hiser; a talk, "Old Brindle and Alfalfa" by Dr. Robert Little; a reading, "Ma and the Auto" by Glenn Whiteside; a talk,

County Courts

DIVORCE SUIT

Filing her petition in Common Pleas Court, Marjorie Stevenson asks for divorce from Willard Stevenson on grounds of gross neglect of duty. The parties were married in Maysville, Ky., Dec. 14, 1937. John B. Hill represents the plaintiff.

ANOTHER ASKS DIVORCE

Married in Paducah, Ky., May 15, 1934, Norman Holloway has filed action in Common Pleas Court asking for divorce from Verna Holloway. He charges gross neglect of duty. One child was born to the parties. John B. Hill represents the plaintiff.

FUNERAL RITES HELD

FOR MRS. ANNA ROGERS

Funeral services for Mrs. Anna M. Rogers were held Tuesday at 1:30 P. M. at the residence on Willard Street, followed by interment in the Locust Grove Cemetery, Adams County.

The services were conducted by Rev. John K. Abernethy, pastor of the First Presbyterian Church, who, as part of the services, read the hymn "Nearer My God to Thee."

The services were conducted by and there were many lovely floral gifts.

The pallbearers were: Gerald Crawford, Herbert Clickner, Frank L. Rothrock, W. R. Everhart, Phil Davis and John Heckman.

THE OLD HOME TOWN

Fayette County Boys With Armed Forces

Pvt. Richard Kelly came home Sunday from Camp Butler, N. C., with a medical discharge after 13 months service in the army. He is at home with his parents, Mr. and Mrs. C. Fred Kelly, 216 West Elm Street. Kelly served 7 months overseas.

Staff-Sgt. Thomas Mark called his mother, Mrs. Fred Mark, from Camp Atterbury, Ind., Tuesday morning, to tell her of his transfer from Fort Benning, Ga., to Camp Atterbury.

Pfc. John E. Rinehart of Route 3, has arrived at Fletcher General Hospital, Cambridge, where he will receive further treatment. He served in the European (Germany) Theater of Operations.

Sgt. Ralph Bailey has arrived at the home of his parents, Mr. and Mrs. Harry Nolan, having been given an honorable discharge from the armed forces. He has spent 3 1/2 years in the service and was released at Camp Atterbury, Ind.

Pvt. Lonnie K. Price is home on a 14 day furlough at the home of his parents, Mr. and Mrs. Clifford Price, on the Creek Road. He has just finished basic training at Camp Livingston, Louisiana, and will report to Fort Riley, Kansas, at the end of his furlough.

Pvt. Harold I. Whiteside of Rt. 1, Jeffersonville, has arrived at Fletcher General Hospital, Cambridge, where he will receive further treatment. Colonel F. R. Osterlander, Commanding Officer, announced today. He served in the European (Belgium) Theater of operations.

Mr. and Mrs. George Grimm of this city have received word that their son, Pfc. Frank Grimm, is

confined in an army hospital in Columbus, Georgia, by a serious illness. He reported to camp at Fort Benning, Georgia, four weeks ago after spending a 30 day furlough here, returning from the European theater of war.

Cpl. Dwight Coffman, a veteran of two years overseas service, called his wife and young son, Ronnie, Tuesday morning from Rome, Italy, while there on a business trip from his station in Marseille, France.

He said he expects to go to Munich, Germany, soon, and that he "hoped to be home by Thanksgiving or at the latest, Christmas."

This is believed to be the first overseas call put through by a veteran from Fayette County.

Mrs. Henrietta Ellis has received word that her son, Pfc. Conde Cyril Ellis, has arrived safely in India and is stationed 40 miles from Calcutta. He entered the army March 9, 1943, and has served 20 months in the Aleutian Islands previously. His wife lives in Greenfield.

Another son, Cpl. Howard H. Ellis, is home now on a 15 day furlough from Boca Raton, Florida, where he has completed an advanced course in radar. He studied the same radar set on the B-29 which dropped the first atomic bomb on Hiroshima, Mrs. Ellis said. Cpl. Ellis will report to Kirkland Field in New Mexico at the end of his furlough.

BUILDING SELLS LEESBURG — Mr. and Mrs. C. E. Dunlap have purchased the Zimmie Block, corner of Main and Fairfield streets, from Mr. and Mrs. A. W. Zimmerman.

SLAUGHTERING INSPECTION IN COUNTY ORDERED

Board of Health Passes Measure Unanimously Tuesday Afternoon

A meat inspection program for retail slaughterers within Fayette County was passed unanimously Tuesday afternoon by the board of health. It was effective immediately.

The resolution, approved after its third reading before the board, includes regulations to control the inspection of meat, meat products, meat food products, fish, game and poultry; the preparation and sale of meat, fish, game and poultry and the issuing and revocation of permits and penalties; the inspection of slaughter houses and meat markets and the slaughtering of animals.

Dr. William Bolton, county sanitarian, will be the inspector and will begin his work just as soon as necessary equipment arrives. There is only a small amount of slaughtering being done now in the county, it was pointed out.

In discussing the measure before its passage, the board member said they felt it would not work any hardships on slaughterers and did not consider it unrea-

sonable. "The board of health is the guardian of public welfare and should not hesitate to take measures to insure that welfare," one board member said.

The regulations affect only slaughterers who kill livestock for retail sales, it was pointed out. At a previous meeting of the board when the measure was being discussed, representatives of slaughter houses in the county were present to take part in the discussion.

Board members passing the measure were Walter Sollars, Dave Glass, Jess Blackmore and Charles Bryant.

HOMES DAMAGED

CHILLICOTHE — During a storm here Monday night several houses were damaged and electric wires torn down by falling trees and limbs.

Give It A CHANCE To Help Feel BETTER

You can help your bowels to act properly by making it a habit to move them at regular times every day. If an occasional attack of bowel sluggishness causes headache or temporary minor intestinal distress, give TONJON Nos. 1 or 2 a chance to remove the waste matter accumulated in the bowels. Then see for yourself how much better you will feel. Caution: Use only as directed. Sold by...

DOWNTOWN DRUG STORE

MAN DRAWS \$20 FOR KILLING FOUR FOXES

Dean Simmons, Perry Township, walked into the Court House Monday, with four foxes he had slain, and when he left he took with him \$20 from the bounty provided.

He is the first man to be paid the \$5 bounty on more than one fox, and so far less than a dozen foxes have been slain and bounty collected from the fund provided.

GRACE CHURCH EDUCATION BOARD MEETS TUESDAY

The board of education of Grace Methodist Church, including all teachers and officers, is to meet

in the Church Wednesday at 7:30 P. M., Rev. George B. Parkin, the pastor, said today.

The new literature for the Sunday School is to be discussed so that the teachers may become familiar with it by the first of October when it will be used, Rev. Parkin said.

The way of a small sailing boat sits in the water is called her trim.

Gas on Stomach

Relieved in 5 minutes or double your money back. When excess stomach acid causes painful, burning, gas, sour stomach and heartburn, doctors usually prescribe the fastest-acting medicine known for symptomatic relief—medicines like those in Bell and Howell's No. 1. Bell and Howell's No. 1 is a truly remarkable medicine.
